SUMMARY

As a dedicated and ambitious student, I am passionate about programming and its transformative power. I am on a journey to become a software developer, eager to create innovation solutions that make a meaningful impact on the world. I aim to contribute to projects that push boundaries and redefine possibilities. The road ahead is full of possibilities, and I am excited to shape the future through the power of programming.

EDUCATION

Bachelor's of Engineering - Computer Science & Engineering	2022-Present	CGPA:8.2
Mangalore Institute of Technology & Engineering		
Senior Secondary (12th) - KSEEB	2020-2022	Percentage:90.3%
Secondary School (SSLC) - KSEEB	2018-2020	Percentage:88.4%

SKILLS

Languages : Java, Python, C, Javascript.

Interface : HTML, CSS.

Database : MongoDB, SQL.

Tools : MYSQL, Solid Edge, Excel, Visual Studio, UiPath Studio.

Technologies : Web Development, Software Development.

PROJECTS

Data Driven Prediction for Cardiovascular Health using Machine Learning | Group of 4 May 2025

Position : Lead Front-End Developer.

Technologies : Jupyter Notebook, React, Scikit-learn, XG boost, Keras, Heroku

The aim of this project is to develop a machine learning-based system for predicting cardiovascular health outcomes using data-driven techniques, enabling early diagnosis, improved decision-making, and preventive healthcare.

Inventory Management using UiPath Studio for Automation | Group of 4 September 2024

Position : Lead Front-End Developer.

Technologies : Uipath Studio, Django Framework, SQLite3, HTML, Python.

The aim of this project is to automate inventory management processes using UiPath Studio, enhancing accuracy, reducing manual effort, and ensuring real-time tracking of stock levels and order processing.

Ecommerce Mobile Application| Group of 4

January 2023-February 2023

Position : Lead Back-End Developer and Database Administrator

Technologies : Ionic, Angular, NodeJS, Express, MongoDB, Heroku

The project involved creation of an Ecommerce mobile application, wherein the front end was developed using AngularJS and Ionic framework. Worked primarily on the backend development using NodeJs, Express, MongoDB to provide RESTful API. The application was successfully deployed in Heroku.

COURSES & WORKSHOPS

- Java Programming Course, Udemy
- **RPA and Automation**, UI path.
- **C Programming Course**, Infosys Springboard.
- **A Complete Java Course: From Basics to Advanced**, Udemy

ACHIEVEMENTS & ACTIVITIES

- **Participated in DevLoop The Coded MeetUp held during Hackfest'25 at NMAM Institute of Technology,NITTE.**
- **Participated in Prompt Wars organized by C.O.R.E, CSI & Crypton Club at Mangalore Institute of Tecnology and Engineering,MITE**

HOBBIES

- Exploring new things.
- Hiking.
- Volunteer Work.
